

# Introducing The Next Generation of Coil Coating Resins

The **BENESTER** Range  
From **BENASEDO**, Italy & **Crest Composites & Plastics**, India

CREST COMPOSITES & PLASTICS PRIVATE LIMITED

## THE COMPANY

**CREST COMPOSITES AND PLASTICS PVT. LTD. (CCPPL)** is one of India's most respected and leading companies in the field of polymer resins technology with an established presence both in the country and the international field. The company, known as innovators, and with extensive R&D operations as one of its key areas, **CCPPL** is ideally positioned to develop unique and exclusive tailor made products and solutions to meet users' specific requirements and provide them with higher value.

### Partnership with M/S Benasedo, Italy

**M/S BENASEDO** of Italy, a highly renowned premier coil coating resin manufacturing company in Europe, reputed for their high quality inputs for coil coating have partnered **CCPPL** for the manufacture of coil coating resins in India.

## THE BENESTER RANGE - COMPLETE RESIN SOLUTIONS FOR COIL COATING

**CCPPL**, under technical collaboration with **M/S BENASEDO**, manufactures and offers a wide & varied array of high performance coil coating resins – **the BENESTER range** – ideally suited for a diverse range of applications and requirements of the coil coating industry. This diverse set of saturated polyester resins has been specifically created for coil coating primer and topcoat applications in the coating industry.

Saturated polyesters, linear and slightly branched, facilitate a set of superlative performance characteristics for different coating applications in different industries –

- Enhanced gloss
- Good flexibility
- Excellent colour retention
- High post formability
- Excellent wetting properties
- Outstanding weatherability & U.V. resistance
- High durability
- High chemical & corrosion resistance properties

**The BENESTER range** of resins for coil coating applications are available with different solid content and dissolved in different aromatic and aliphatic solvents.

Detailed specification sheets of the complete **BENESTER range** are available on request.

## WORLD CLASS QUALITY MANUFACTURING PROCESSES

Every product of **CCPPL** is assured of the highest international quality and is backed by the latest and most sophisticated technologies in its production processes. The manufacturing facility not only uses the latest hi-tech equipments, but the process itself is designed to provide the utmost in quality and efficiency.

To ensure that all processes are up to international standards at all times, the company's systems and processes are compliant to **ISO 9001:2000** – certified by **Det Norske Veritas (DNV)**.
